PROFESSIONAL SUMMARY

Full-Stack Developer (3+ years) driving full end-to-end ownership of the e-learning platform, while providing ad-hoc development support for MyTalent and Admission. Adaptable and growth-minded, with a track record of delivering scalable, high-value results for clients and the broader tech community.

WORK EXPERIENCE

Full-Stack Developer – Education Platforms - Bogor [Jan 2023 – Now]
Full-Stack Developer

- Maintained full hands-on ownership of *ABhome Elearning Apps*, directly coding and designing the platform end-to-end, from initial design system setup to backend architecture and deployment.
- Contributed feature-level enhancements to *MyTalent Apps* and *Admission Apps*, delivering ad-hoc development support to extend platform functionality.
- Architected scalable RESTful APIs and integrated third-party services (payment gateways, Google APIs) to ensure reliable ecosystem performance.

Freelance Technology Consultant, Mentor & Digital Educator - Bogor [Aug 2020 – Now]
Technology Consultant / Peer Mentor

- Acted as a thinking partner to help mentees clarify technical goals, streamline freelancing workflows, and resolve real-world engineering problems.
- Produced blogs, short-form videos, and tech talks sharing programming insights and career guidance, building a credible presence within the developer community.

SKILLS, ACHIEVEMENTS & OTHER EXPERIENCE

Hard Skills: Python, PHP (Laravel), Node.js, RESTful API Development, Full-Stack Development, API Integration (Payment Gateways, Google APIs, Messaging Services), Cloud Deployment (GCP, Heroku, Vercel, Netlify, Cloudflare), Linux CLI & Workflow Automation, Git & Version Control (GitHub, GitLab), Web Scraping & Data Analysis

Soft Skills: Leadership, Troubleshooting & Debugging, Client Communication & Education, Mentoring & Coaching, Problem Solving, Adaptability & Continuous Learning, Project Collaboration (Notion, Jira, Miro)
